

Corporate Travel & Expense Reimbursement Policy

Document Ref: IC-POL-TRV-2026 | Effective: January 1, 2026 | Version 4.2

1. Purpose & Scope

This policy defines the structural rules, authorization thresholds, and reimbursement workflows governing all business travel undertaken on behalf of InnoCorp Solutions. This policy applies strictly to all full-time employees, part-time personnel, and third-party contractors.

2. Pre-Travel Authorization Framework

All business travel must be formally approved prior to booking any commercial inventory. The authorization hierarchy is designated strictly by the distance and scope of the transit vector:

- Domestic Travel (Intra-continental):** Requires approval from the direct Line Manager via the HR portal at least 7 business days prior to departure.
- International Travel (Inter-continental):** Requires dual-authorization from both the Department VP and the divisional CFO at least 21 business days prior to departure.

3. Expense Reimbursement Matrix

To normalize corporate spending and maintain clear boundaries for testing parsing frameworks, the following tier thresholds are enforced across all expense buckets:

Expense Category	Standard Tier (IC-01 to IC-05)	Executive Tier (IC-06+)
Air Travel	Economy Class only for flights under 6 hours. Premium Economy allowed for flights over 6 hours.	Business Class allowed for all inter-continental flights exceeding 4 hours total duration.
Lodging Limits	Maximum \$200 USD per night (Standard Room). Capital cities capped at \$250 USD per night.	Maximum \$400 USD per night (Suite/Deluxe Room). Capital cities capped at \$500 USD per night.
Daily Per Diem	\$75 USD/day domestic; \$100 USD/day international. Covers meals and incidental items.	\$120 USD/day domestic; \$150 USD/day international. Covers all meals and standard client entertainment.
Ground Transit	Standard rideshare (UberX), public rail, or economy car rental models (Class C or lower).	Premium rideshare (Uber Black) or mid-size/luxury car rental models (Class E or higher).

4. Corporate Credit Cards & Reconciliation SLAs

Employees issued an InnoCorp corporate credit card must utilize it exclusively for all pre-approved business expenses. Direct out-of-pocket transactions are only eligible for reimbursement if corporate card payment layouts are rejected by the local merchant.

- **Submission Window:** Expense reports containing itemized receipts must be submitted via the Concur gateway within 14 calendar days post-travel.
- **Receipt Threshold:** Digital or physical itemized receipts are strictly mandatory for any individual line item exceeding \$25 USD.
- **Reimbursement Cycle:** Validated out-of-pocket reimbursements are executed within a 10-business-day processing window following final manager sign-off.

5. Policy Verification FAQs

Q: What happens if a flight is delayed and I miss my connection?

A: Employees must contact the corporate travel agency hotline immediately at +1-800-555-TRAV to rebook tracking blocks. Any incremental costs incurred due to airline delays will be covered outside standard limits.

Q: Can I combine a personal vacation with a business itinerary?

A: Yes. This is permitted provided that the baseline business flight components do not increase in price. All personal lodging, meals, and incidental segments must be charged to a personal credit card.
